

Price, Frederick (2)

Jan-Feb 1914

70
January 26th, 1914

Dr. F. M. Price,

133 Harley Street West,

Toronto.

Dear Dr. Price:

I have your letter of January 12th which I have read with a great deal of interest, and which I shall keep beside me. There will be no vacancy I suppose for a while, and we have not yet made any decision as to retreating or conducting the work of the chair when the vacancy is to be filled. I am keeping one of the two articles you sent, but I am returning that on "The Action of Aconite" at your request.

I remember quite well your visit, and the interest that you elicited while here. I am glad to know that the Faculty of Medicine of the University has a reputation sufficient to attract men of ability from abroad. With kind regards, I am,

Yours sincerely,

President.

February 20th, 1914

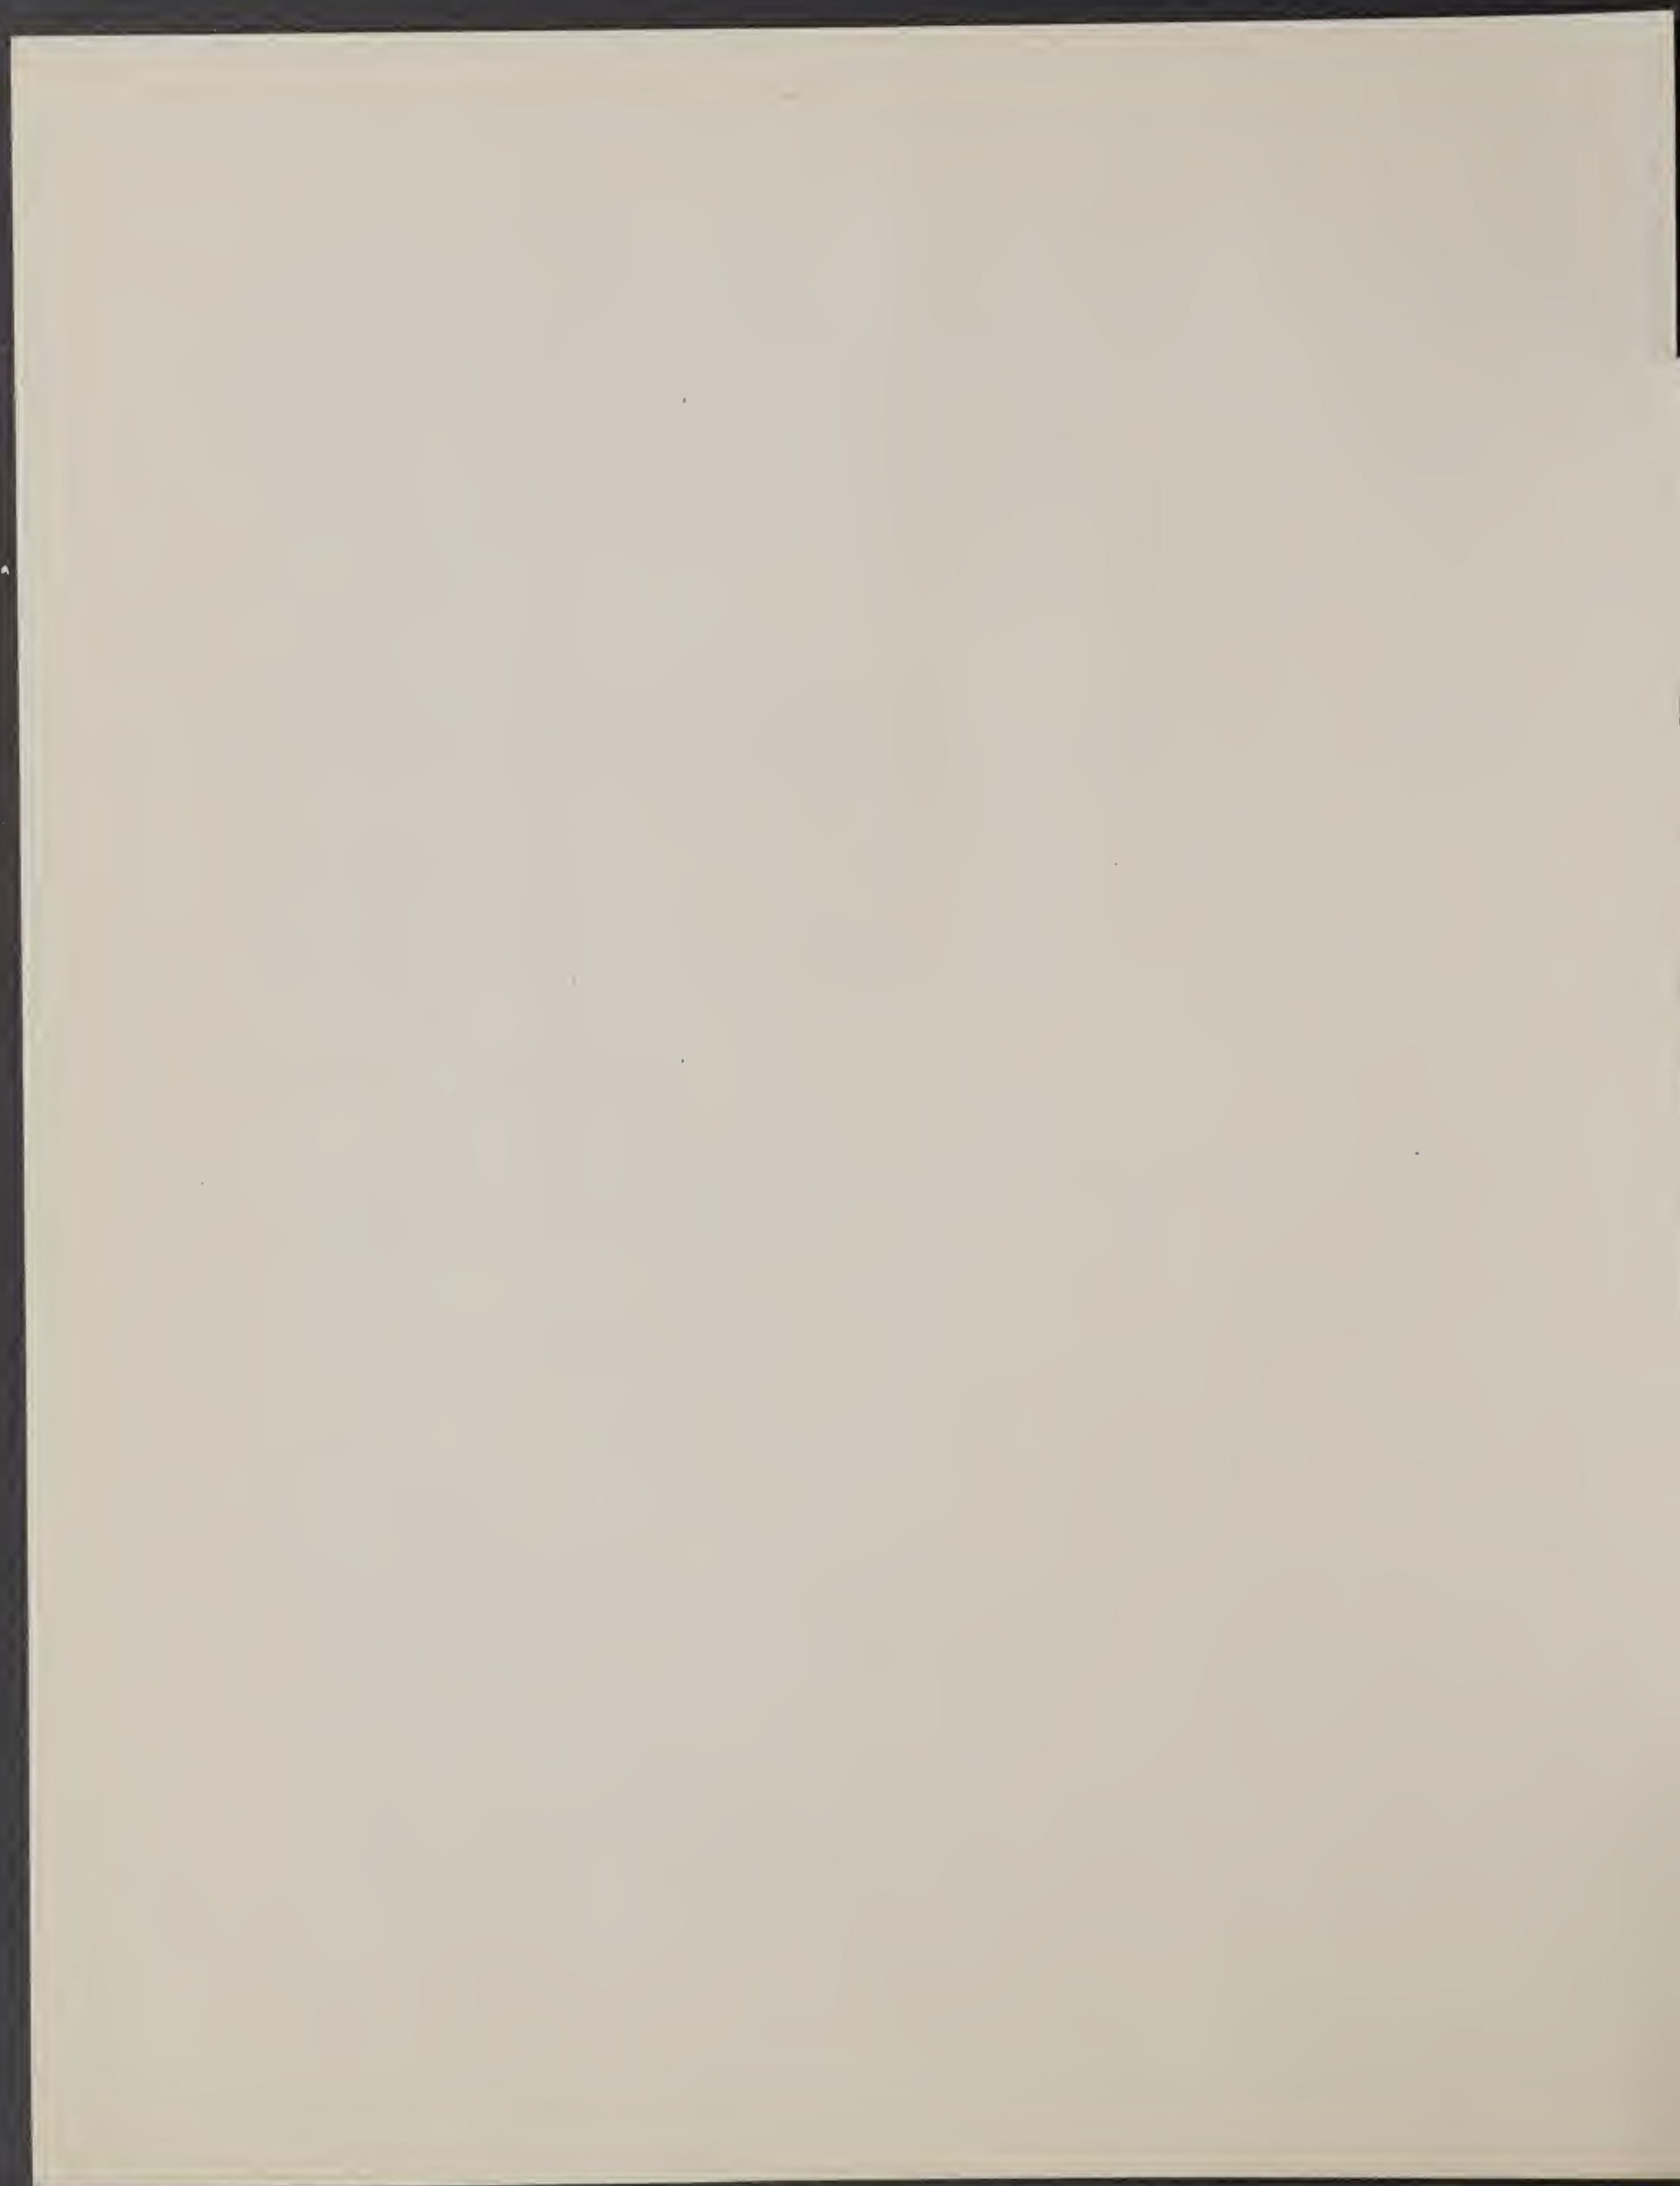

Dr. E. W. Price,
133 Harley Street,
London, W.

Dear Dr. Price:

As far as I see at present there is no likelihood of there being a vacancy in the Department to which you refer for some time to come, and I am at present unable to make any suggestions as to the method that we may adopt in filling the vacancy when it does arise. There are several questions of policy that will have to be carefully considered when we are confronted with the matter. I fancy, however, that these will have been made clear in my last letter to you which crossed yours. With kind regards, I am,

Yours sincerely,

President.

Feb. 24. '14.

Dear Mr President,

Will you allow me to
thank you very cordially for
your letter of January 26th.
The reason for the delay in ac-
knowledging it - which I trust
you will kindly excuse - is
that I wished to further think
the matter over, and I have
been much engaged in writing
a big article.

May I be permitted to say too

things. Firstly, that provided
a vacancy occurs within about
five years I beg to put forward
my name for your consideration.
Secondly, I shall be much
obliged if you would be good
enough to send me at any time
any information regarding this
subject which you think is
permissible; it might influence
my future. I suppose it would
be possible, and you might think
it desirable, to make an appoint-
ment a good time before the

person appointed would be asked
to commence work. For example,
if I had the honour of being
appointed, I should do certain
things to still further fit me
for the post, and also I
might edit a general text-
book of medicine.

Believe me, dear President,
with renewed thanks and
kind regards,

Yours sincerely,
Frederick W. Price.
